

Motor Yachts

INTERNATIONAL

MARITIME

SERVICES PTY LTD

Previously the only opportunity for yacht captains, engineers and crew to have time off from their busy cruising schedule was during an Atlantic or Pacific crossing in between seasons.

Captains work hard when the owner or guests are onboard. We help them to stay fresh and enjoy their career. Now they can leave their yacht knowing that they have the best possible replacement onboard.

IMS' yacht crews are well presented with excellent people skills. When onboard they integrate with the crew and existing policies. We let the interior and exterior departments run as usual and concentrate on the job that we have been hired to do.

Our rates are very competitive, so why pay more when you can have the best for less? Take 5 minutes to contact us via email, fax or phone and we will give you all the information you require, as well as contact details of satisfied yacht captains and management agencies currently using our expertise.

•
Supplying reliable Captains, Engineers & Deck Crew for crossings or charters.

•
Refits and yard periods worldwide.

•
ISM Implementation
